2002

S.NO.	PAGE	P. No.
	Preface	1
1	Distribution	2
2	Morphology	6
3	Flowering and Fruiting	12
4	Silviculture and Management	14
	4.1 Natural regeneration	14
	4.2 Artificial regeneration	15
	4.2.1 Propagation by seeds	15
	4.2.2 Vegetative propagation	15
	4.2.3 Macro-proliferation	18
	4.2.4 Tissue culture	19
	4.3 Planting technique	20
	4.4 Management	21
5	Utilization and Uses	22
	5.1 Anatomical uses	22
	5.2 Physical properties	22
	5.3 Mechanical properties	23
	5.4 Seasoning properties	23
	5.5 Durability	23
	5.6 Treatment of Dry Bamboo	23
	5.7 Treatment of Green Bamboo	23
	5.8 Working qualities	24
	5.9 Traditional uses	24
	5.10 Recent uses	24
	5.11 Medicinal and other related uses	25
	5.12 Utilization as Nutrition and Fodder	25
6	Economics	28
7	Productivity	33
	Literature cited	34
Annexure I.	Identification Key of Bamboo	37
Annexure II.	Diagnostic Epidermal features of <i>Dendrocalamus</i> species	43
Annexure III.	Culm Epidermal features of <i>Bambusa</i> species	44
Annexure IV.	Identification key of Bamboos by Leaf characters	45
